

When I have to stay home

The Corona Virus is a virus that can make people poorly.

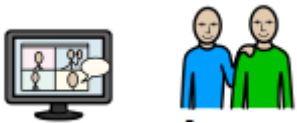

If we have Corona Virus or are in contact with people that have it, we must stay home.

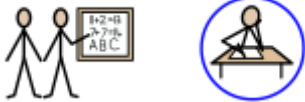

While I am at home, if I am poorly, I must rest until I am better. When I am better I can join in with blended learning at home.

If I have to stay home but I am not poorly, I will join in with blended learning at home.

I will have class meets using my computer. This will be for chatting, lessons and assemblies. I will be able to see my friends and teachers on the computer or tablet.

My teachers will send me learning to complete.

It will be like learning at school while I am at home.

After either 10 or 14 days, being at home will finish.

My teachers and family will help me countdown the time.

I will then be able to go back to school.

Following these rules and staying home when told will help to keep me and other people safe.
